

# Bank of America Merrill Lynch – Summer Internship / Full-Time Programs

---

## Summer Analyst / Associate Programs

### Overview

Summer Analysts and Associates in the Asia Pacific region participate in an 8 - 12 week program, depending on location, which is designed to give you a unique opportunity to gain exposure to life in Investment Banking. The program begins with firm wide orientation, and continues throughout the internship with training, networking events and social activities. You will be given responsibilities early and will be expected to make a significant contribution to the team. As internships mirror full-time positions, they also include goal-setting and a formal review process as well as plenty of opportunity to interact and work with senior bankers.

### Locations

Australia, Hong Kong, India, Japan, and Singapore, Korea, Taiwan
